More about Sharecare's tools and resources

As a member of the Sharecare community, you get access to personalized tools and resources that help you understand your daily habits and live a healthier life – whether you have a long way to go or you want to reach the next level.

Take the RealAge Test.

The RealAge Test within Sharecare will reveal your body's true age based on your eating, exercise and sleep habits, behaviors and existing conditions.

Leverage your health profile.

Sharecare creates a personalized experience and profile for you with actionable recommendations so you can start improving your RealAge immediately.

Earn your green days.

Sharecare makes it easy to track your health and record your progress in one place – from your fitness and steps to your eating, stress, sleep and more. When eight of the 13 health factors are green on a given day, you earn a green day, which can help lower your RealAge.

Have peace of mind with Sharecare and your privacy. We take privacy and security very seriously. Sharecare will never share your personal data with your employer or anyone without your permission.

This wellness program is administered by Sharecare, Inc., an independent company that provides health improvement management services to Blue Cross of Idaho members.
